Next meeting	13 October 2020
---------------------	-----------------

Agenda item: 1 – Introduction

Sonia Lark welcomed everyone and advised she would be handing over the running of the group to Danielle Miller for a time.

Agenda item: 2 – Action item updates

Updates were provided for outstanding action items. (see [action items](#))

Agenda item: 3 – Tax Time update

The annual Services for Tax Practitioners event will be held online via webinar this year.

The software developers website has been updated with information for attendance.

Submit an EOI through Online Services for DSPs if you would like to attend.

Agenda item: 4 – CbC update

Danny Figueiredo advised the new CbC 2020 service is now available in EVTE and will be available in production on 01 October 2020. The previous 2017 version has been deprecated, but lodgments can still be made up until 30 November 2020. Content on the Software Developers website will be updated shortly.

Updates to the local file master file service will go live on 01/07/2021 to take into account Schema v 3.0 update. The SBR and BDE specs will be made available as soon as possible. Details can be tracked via the Tax Time 2021 Delivery Schedule and [Country-by-Country \(CbC\) reporting page](#) on the Software developers site.

Agenda item: 5 – Delivery update

Work is occurring as we move into the planning phase for the next round of EVTE releases in the next fortnight.

We hope to share an updated Release on a Page at the next meeting.

Agenda item: 6 – Platform update

SBR1 EVTE has been experiencing intermittent failures related to network issue. A short-term solution has been applied to bring the environment back online and work is occurring with vendors and network SME's to provide options on a long-term solution.

SBR2 Prod2 had failures for CUREL services for a short period of time on 28/09 due to authorisation issues. The issue was been fixed and services were restored quickly.

SBR2 Prod2 experienced degradation due to large MATS files being received in short period of time. All messages processed successfully with no failure.

The ELS issue experienced yesterday has been fixed and previous year messages will be replayed as a priority

SBR2 Prod & EVTE are currently stable.

Agenda item: 7 – Agent online environment update

Carl Bennett provided an update on the agent online environment, there were no major issues to report.

Agenda item: 8 – DSP feedback

Kevin suggested that a response to a JobKeeper related query he raised through OS4Ds be made available more broadly. DPO will follow this up to determine where this information should be published.

Response: The resolution to the query will be published on the [COVID-19: Supporting DSPs](#) page in the Collaboration Hub.
