<b>Next meeting</b>	TBA
---------------------	-----

## **Agenda item: 1 – Introduction**

DPO provided a high level overview of outcomes from the four Operational Framework focus groups, with more detailed information from each group already published on SWD website.

This was an opportunity for DSPs to be informed of the progress of each of the working groups. DPO reiterated, if any changes were to be made to the Operational Framework that appropriate transition timeframes would be provided.

## **Agenda item: 2 – Focus Group Outcomes**

Outcomes from each of the focus groups were discussed with an opportunity for DSPs to contribute further feedback. Items raised included:

- Payload encryption impacts on ebms3 AS4 client
- Hybrid systems
- Options for SSP and encryption
- Feedback on machine to machine

DPO advised further discussions are needed and focus groups will re-commence in February-March 2021.

DPO thanked the DSPs for their support, especially their broader contributions to other ATO solutions through out a challenging year.
