

Fortnightly tax table with no and half Medicare levy

! For payments made on or after 1 July 2014

Using this table

Use this table if you make payments to a prescribed person entitled to a full or half Medicare levy exemption. Prescribed persons include members of the defence force and certain recipients of repatriation and social security pensions and benefits.

You should use this table if you make any of the following payments to these employees on a fortnightly basis:

- salary, wages, allowances and leave loading paid to employees
- paid parental leave to an eligible worker
- director's fees
- salary and allowances paid to office holders (including members of parliament, statutory office holders, defence force members and police officers)
- payments to labour hire workers
- payments to religious practitioners
- government education or training payments
- compensation, sickness or accident payments that are calculated at a periodical rate and made because a person is unable to work (unless the payment is made under an insurance policy to the policy owner).

For this table to apply, your employee must have completed both of the following:

- a valid *Tax file number declaration* (NAT 3092) claiming the tax-free threshold
- a *Medicare levy variation declaration* (NAT 0929) claiming a full or half levy exemption from their Medicare levy.

Other tax tables may apply if you made payments to shearers, workers in the horticultural industry, performing artists and those engaged on a daily or casual basis.

! If you make a payment to your employee who is entitled to an adjustment to the Medicare half levy, refer to *Weekly tax table with no and half Medicare levy* (NAT 1008).

> For a full list of tax tables, visit our website at ato.gov.au/taxtables

We have a calculator to help work out the correct amount of tax to withhold from payments to most employees. To access the calculator, visit our website at ato.gov.au/taxwithheldcalculator

Using a formula

The withholding amounts shown in this table can be expressed in a mathematical form.

If you have developed your own payroll software package, refer to *Statement of formulas for calculating amounts to be withheld* (NAT 1004).

> Refer to *Weekly tax table with no and half Medicare levy* (NAT 1008) for important PAYG withholding information including:

- tax file number (TFN) declarations
- Higher Education Loan Program (HELP) and Financial Supplement (FS) debts
- allowances
- holiday pay, long service and employment termination payments
- tax offsets.
- withholding declarations
- Medicare levy adjustment

1	—	70	3	1173	45

8	—	400	15	1750	67

50	2	900	34	3000	114
57	2	1000	38		
60	2	1100	42		

If the exact tax offset claimed is not shown in the ready reckoner, add the values for an appropriate combination of tax offsets.

Example

Tax offsets of \$422 claimed. Add values of \$400, \$20 and \$2.

= \$15.00 + \$1.00 + \$0.00

= \$16.00.

Therefore, reduce the amount to be withheld by \$16.00.
