Action Item	Description	Action by	Status	Update
23/07 - 02	DSPs queried whether there have been many incidences of clients exceeding the maximum number of records for a label and consolidating records, or just providing totals at the consolidation record.	Ross Barns	**In progress**	
23/07 - 01	As DSPs are receiving queries on the level of detail to be provided (how granular is granular) in the deductions schedule, Ross will revisit whether clarifying information can be published on ato.gov.au. He will draft a document for circulation prior to publishing.	Ross Barns	**In progress**	
25/06 - 04	Paul will provide an update on the three options which were proposed in the EFTRS solution.	Paul Walters	**Closed**	**09 July:** Paul provided an update on the propsed changes as a result of DSP feedback. The details will be attached to the Key outcomes form the 09 July meeting.
25/06 - 03	Kylie will send out a communication to the group outlining the most appropriate channel for the various enquiry types	Kylie Johnston	**In progress**	**23 July:** No further update at this time **09 July:** We are looking at updating our internal processes to be able to facilitate responses to technical questions when they are necessary to help you in building your products. We will come back to the group once we have something definite in place, however with the number of other high priority items we have on hand currently, this may take some time.
25/06 - 02	Mick will provide an update on the work occurring on handling 'interactive errors'.	Mick Ferris	**In progress**	**23 July:** No further update at this time **09 July:** Warren gave a brief overview, however work is still continuing and more information will be provided to the group as it becomes available.

Action Item	Description	Action by	Status	Update
25/06 - 01	Ian will provide the group with an overview of what to expect from the agent-based-client amendment process in relation to pre-filled STP data.	Ian Colhoun	**In progress**	**23 July:** No further update at this time **09 July:** Work is continuing on preparing this overview.
11/06 - 01	A query was raised in relation to instructions for the IITR deductions schedule – whether there would be any documentation published on ato.gov.au	Ross Barns	**Closed**	**25 June:** At this stage we are not intending to publish anything specifically for accountants to ATO.GOV.AU. We will monitor the feedback from both DSP and practitioners via our call centres and address specific issues as they arise. DSP's are welcome to share the Q&A document that supports the development of the deduction schedule with clients. **11 June:** Ross advised there was no current plan to publish details or instructions, however he will review the deductions schedule Q&A document to determine whether there is a level of detail which would be of use to agents. He will report back to the group whether a version of the document can be published on ato.gov.au
14/05 - 02	An overview of the EFTRS solution proposal will be sent out	DPO/Warren Sturgiss	**Closed**	**27 May:** EFTRS proposal slide has now been published https://softwaredevelopers.ato.gov.au/PLSWG_20190514 **24 May:** EFTRS proposal slide received. To be sent for publishing
14/05 - 01	Expressions of interest will be sought from DSPs to be involved in design discussions for the 2020 income schedule granular data	DPO	**Closed**	**28 May:** EOIs received
30/04 - 02	DSPs want the specifications for portal IITR pre-fill made available.	David Baker/DPO	**Closed**	**16 May:** Sample reports also now published **15 May:** Pre-fill specifications have now been published https://softwaredevelopers.ato.gov.au/prefillingreport **14 May:** The pre-fill specs have been sent to publishing 14 May, with the sample reports expected shortly. **30 April:** David will advise when the pre-fill specifications will be made available.
30/04 - 01	Reckon is experiencing an	Nadeem Shariff	**In**	**23 July:** We are still waiting on some final details from DWIS and business.

Action Item	Description	Action by	Status	Update
	issue when agents are lodging Simpler BAS and they are prompted to select a GST reporting option, yet when one is selected, the lodgement is rejected.		**progress**	Once we have it, we will publish on SWD. **09 July:** Initial analysis has been completed, awaiting final recommendation by next week **25 June:** DWS have been engaged (via Madhavi) – detailed code analysis underway in relation to the reporting options and selections. Once complete, a technical recommendation will follow. This will then be communicated to the DSP community. **11 June:** The activity statement team referred Reckon back to the BIG. Reckon are to make the necessary software changes based on the BIG. Due to the upcoming changes (around early next year) to Activity Statements, any changes to the the current taxonomy are unlikely. The DPO will consider how to communicate this information out more broadly to ensure consistent messaging. **28 May:** DPO (Nadeem) will meet with business then advise Reckon of outcome – will also liaise with account manageres of other affected DSPs and get back to the group **28 May:** The activity statement team is reviewing the matter and will follow up with Reckon. **16 May:** Reckon's account manager is in the process of scheduling a discussion with the appropriate ATO SME in relation to the Simpler BAS related MSTs and other documentation. Steven Ivanopoulos has been updated accordingly. **14 May:** Reckon advised that the pre-fill brings in a blank field, and can be returned with a blank field – is this the correct action. Nadeem is seeking further clarification. **14 May:** The BIG states that SBR cannot be used to elect a reporting method. It also states that the supplied reporting method should be used to display to agents. This is supplied as part of the prefill response. A response has been provided to Reckon. **30 April:** Nadeem is working with business to determine a resolution to this issue.

Action Item	Description	Action by	Status	Update
16/04 - 06	Sage indicated there have been issues with ELS Prior Year lodgement validation reports.	DPO/Paul Mosca	**Closed**	**30 April:** Incident INC000034229769 has been raised for this issue. As this is a DSP specific incident, it will be dealt directly with DSP outside the PLS Forum. **16 April:** There is already a logged incident and the DPO account manager will request for an update on the incident.
16/04 - 05	Multiple DSPs are experiencing issues with the TPCMR on-demand reports (ie ASLRPT) where the report is never received for the tax agent. The number of these cases are increasing on a daily basis. Account managers have already been looking into these issues via separate incidents.	DPO / Danny Figueiredo, Paul Walters	**In progress**	**23 July:** Due to Tax Time priorities there has not been significant progress on these reports since the last meeting. We will now apply a renewed focus to these issues. Issues with the EFT reconciliation Report batch processing have been identified. The batch process on SBR is terminating unexpectedly. The report is now being monitored daily and restarted if required. Root cause analysis is currently underway **09 July:** High demand at this time has highlighted the need for further consultation on polling cycles and information is still being collected. In the interim we are also continuing to investigate and fix individual defects when identified. A fix was deployed on 24/6 for a bug preventing reports being generated where an agent had no client links at the account level. **25 June:** We have identified that in a number of cases reports are unsuccessful due to the timing of polling attempts and incorrect message standards being applied. Guidance is being developed on the optimal process to follow. Other issues preventing successful reports being pulled are still under investigation. **11 June:** Recent checks show only a small number of reports are failing to complete on the mainframe and in each case investigated a legitimate cause has been identified. We continue to receive advice that agents are not receiving the reports indicating a different issue. This is now under investigation. DSPS should continue to report failures in receiving the reports. **28 May:** DPO will continue to monitor issues – DSPs please do not hesitate to contact the DPO to raise any additional incidents or further information. **28 May:** There was a recent deployment to the ATO backend systems that

Action Item	Description	Action by	Status	Update
				envisaged the improvement of the TPCMR reports. There have been significant improvements to the services however some specific agents from multiple DSPs are still experiencing issues where the reports are not being received. The ATO/DPO is still investigating these multiple incidents and if DSPs are continuing to receive these problems from agents please do not hesitate to contact the DPO to raise any additional incidents or further information. **14 May:** The update is currently in code review. We are still aiming for deployment 20/5/19. **30 April**: DPO has received an update from the resolver team and that we have identified the root cause for this particular issue. We are currently working on Code fixes for both AS Client Report and AS Client Lodgement Report with an estimated date to complete the code changes, testing and Production deployment for May (proposed date 24th). We will monitor this action item. **16 April:** DPO account managers and DPO management will look at getting the priority increased as requested by the multiple DSPs.

Action Item	Description	Action by	Status	Update
16/04 - 04	Some DSPs expressed their concern as they have not received some of the IITR 2019 newsletter and DPO bulk communications.	Danny Figeuiredo	**Closed**	**30 April:** on 18 April, Danny sent all IITR DSPs a copy of all the IITR comms to date. This was sent from his personal ATO mailbox. Some DSPs have responded, thus action item closed. **16 April:** Danny will re-send DPO emails detailing IITR 2019 changes notifications direct to DSPs developing this service.
16/04 - 03	DSPs expressed concerns over the SMSFAR changes and when it will be released to EVTE	DWS / Anu Duggiraia, Mick Ferris	**Closed**	**14 May:** This was deployed to EVTE as a hotfix on 2nd of May Published to SWD website 01/05: https://softwaredevelopers.ato.gov.au/SMSFARrollback Alert issued in DSP Newsletter 01/05 **30 April:** DWS has supplied the ATO SMSFAR planned roll back of changes. Official comms to all DSPs has been drafted and includes the proposed MST file this will bridge the gap as changes are still planned for May EVTE. There will be no changes to the taxonomy. **16 April:** DWS will determine whether pre-EVTE release or hotfix will be available for SMSF changes which are being rolled back
16/04 - 02	Reckon requested for an update on the availability of the PDF forms which includes the TT19 change details. In past years this would have already been provided.	DPO / I&I	**Closed**	**30 April:** Updated draft forms and instructions will be published progressively as they are finalised – a number were sent to publishing this week. The FBT return final form was published on ato.gov.au – and is now also published on the SWD website. **https://softwaredevelopers.ato.gov.au/2019Finalreturnforms** **16 April:** DPO and I&I teams to liaise with other internal ATO teams to source this information for all DSPs
16/04 - 01	Reckon requested for the updated Tax time change advices to be provided to DSPs regarding. These include but not limited to: • Personal tax plan • Instant asset write-off changes for small	DPO/ I&I	**Closed**	**30 April:** Updated Change Advice has been published 30/04. **16 April:** DPO and I&I teams to liaise with other internal ATO teams to source this information for all DSPs

Action Item	Description	Action by	Status	Update
	business			
02/04-03	DSPs are waiting for the BIGs for IITR 2019 and IITR pre-fill.	DPO	**Closed**	**16 April:** These have now been published 12/04 to SBR.gov.au **11 April:** Dino Di Lorenzo confirmed the BIGs have been updated and are in the process of being sent to publishing, with approval for priority publishing. Expected to be published by Mon 15/04. **02 April:** Sonia following this up with Ross Barns.
02/04-02	Company Tax Return specifications have not been released.	Mick Ferris	**Closed**	**30 April:** Functional changes for RDTIS and CTR have been released in April EVTE release **16 April:** Expected in EVTE drop 18/04 **02 April:** Mick to confirm when this will be available and see how DSPs can access this faster.
02/04-01	DPO to publish new IITR Deductions Schedule Q&A to SWD and send out links to members.	DPO	**Closed**	**11 April:** Revised document published to SWD website **02 April:** Document sent to publishing on 04/04
20/03 - 03	Sage and MYOB are having issues with the SBR transaction data statistics reports as they are not provided by the account managers in a consistent manner. Also the current format of PROD2 transmission report is not the same as the previous PROD1 report. Account managers have stated that the ATO is working on this but no solution has yet been provided.	Danny Figueiredo	**Closed**	**30 April:** In progress. DPO testing the e-commerce reporting solution over the next few weeks. SAGE and MYOB should be receiving the reports from their account manager. Suggested this action item to be closed and dealt with those accounts directly. **16 April:** We are still working on a solution for account managers to be able to do these reports. Danny has been sending the interim reports weekly. Anticipating this issue to be resolved by next meeting. **11 April:** Interim PROD2 reports have been sent to the requesting DSP for 2 weeks. This is still an interim report and DWS ecommerce reporting is still working on a long term solution. **02 April:** Danny is working with the DWS ecommerce team on the PROD2 report. **20 March:** Danny to check with ATO/DWS for an update on the reports

Action Item	Description	Action by	Status	Update
20/03 - 02	DSPs are still experiencing issues with receiving bulk emails generated from the SWD website – daily/weekly updates	Scott Rumford	**Closed**	**16 April:** Our IT security area has advised that we are unable to resolve the issue with the daily email updates at the present time. You can still subscribe to the weekly **DSP newsletter** and we will continue to look for other opportunities to improve the site and provide other suitable workarounds. This issue will be addressed when we move to the new platform – expected by end 2019. **02 April:** No further update at this time **20 March:** We are working with the security area to get this resolved. Scott will follow up.
20/03 - 01	A focus group will be established for involvement in the design process for the AS service changes. (STP pre-fill, etc)	DPO	**Closed**	**26 March:** EOI published in DSP Newsletter **20 March:** EOI was issued on 26 March. First meeting expected to be scheduled within the next 2 to 3 weeks
05/03 - 01	Do the DSP's who have just moved to Prod 2 need to update certificates, or was that done as part of the move. Sharna to get in touch with Wolters Kluwer	Sharna Maltman	**Closed**	**20 March:** The recent SBR1 and SBR2 certificate changes were for the following: • SBR2 PROD1 SSL (**ato.sbr.gov.au**) • Signing certs (**signing.sbr.gov.au**), and • SBR2 PROD2 Signing certs (**signing.sbr.gov.au**). • SBR2 **prod2.ato.sbr.gov.au** was not changed and it expires 5/12/2020. Please note that as the **signing.sbr.gov.au** certificates changed for both PROD1 and PROD2, this needed to be changed as the signing.sbr.gov.au certificates handles integrity verification of the responses from ATO/SBR which is different to the SSL root certificates which to established a trusted connection with SBR/ATO.
05/03 - 02	GovReports were having issues with the DSP online services. GovReports raised a concern that on certain occasions,	Sharna Maltman	**Closed**	**20 March:** GovReports are now successfully using Online Services for DSPs to communicate with us. No further issues have been raised. Please note also that JIRA was successfully upgraded to the latest version over the weekend.

Action Item	Description	Action by	Status	Update
	while updating an existing Jira item, data was not saving. It appeared to GovReports that the Jira item was not updating with their comments or details (sometimes).			
05/03 - 03	Document the whitelisting and PVT process when DSPs are requesting whitelisting for TT19, where DSPs are whitelisted for the TT18 version of the service.	Danny Figueiredo	**Closed**	**14 May:** An email issued on Fri 10 May to all relevant DSPs outlining the 2019 IITR whitelisting and PVT process, including an attachment with PVT scenarios. Also published on SWD website – link issued in DSP newsletter date 14 May. **30 April:** Based on the comments and feedback from last meeting, the DPO and IITR business team is finalising the PVT process and all DSPs will be communicated via e-mail and newsletter either this week or next week. **16 April:** DPO has been working with the internal ATO business team on the IITR 2019 PVT process which will be required for all DSPs. Danny has contacted some DSPs directly via phone for pre-discussions and presented the draft process for discussion at the meeting on the 16th. DSP expressed the need for this information to be sent via e-mail and published as reference. DPO will provide this once all the comments and feedback have been analysed from 16th meeting. **02 April:** All DSPs consuming IITR 2019 will need to go through a re-certification process. The PVT process is currently being discussed internally within the ATO and once finalised will be provided to all DSPs via the PLS Working Group forum and other official communication channels. This can be closed once the process is finalised. **20 March:** Waiting on clarification from business whether whitelisting against the new IITR19 service will be required given the number of changes – this will be communicated to all DSPs. There are no issues with FBT19 – no additional whitelisting is required. **20 March:** If a DSP is certified for the prior year service they can package their tax time request into one single online services for DSP system ticket

Action Item	Description	Action by	Status	Update
				after the conformance tests are completed. If no PVT is required the DPO will whitelist, inform the DSP and close the ticket. In the event that PVT is required the DPO will advise the DSP, and the PVT process will be conducted. A DSP will need to PVT if they are new, haven't gone through PVT for a particular service previously, or there are significant changes to a service i.e., IITR 2019, upon completion of the conformance tests a DSP will need to raise online services for DSP system ticket. The DPO is currently working on the PVT process for IITR2019 and will inform all DSPs in due course. FBT2019 will be removed from this action item.

Action Item	Description	Action by	Status	Update
19/02 - 10	Mick Ferris will provide more detail around decision to update WPN from 11 digits to 9, and how this will work retrospectively. (Reckon)	Mick Ferris	**In progress**	**23 July:** No further update at this time – awaiting deployment **09 July:** No further update at this time – awaiting deployment **25 June:** No further update at this time – awaiting deployment **11 June:** No further update at this time – awaiting deployment **28 May:** No further update at this time – awaiting deployment **14 May:** No further update at this time – awaiting deployment **30 April:** No further update at this time – awaiting deployment **16 April:** No further update at this time – awaiting deployment **02 April:** Mick confirms a fixed is planned (allowing the field to accept leading zeros to extend the length of the WPN in the ABN field). No date planned for the fix, but it will not be included in the next EVTE release. **20 March:** Mick will provide confirmation that '11' is the correct length. **20 March:** For prior services deployed into production, the WPN will remain. Updating will cause a breaking change to the service, to modify the schema. Going forward, the correct length will be used in services deployed. **5 March:** Mick is still waiting for information
19/02 - 09	Reckon to forward queries around deductions granular data to Account manager (Nadeem) and Beth Strods for clarification. (TT19 car deductions too complicated, Super deductions schedule and complicated validation rules)	Beth Strods/Nadeem Shariff	**Closed**	**21 February:** Full list of concerns was sent by Kevin and responded to in detail by Ross Barns. Kevin required further clarification – Ross and Kevin have had further converstions to close this issue.
19/02 - 08	DSPs to be provided details on the next BIG IITR update available for DSP consumption to take into account the IITR TT19 changes	Mick Ferris	**Closed**	**5 March:** Mick assured DSP's that the next BIG has taken into account the feedback provided in previous meetings.
19/02 - 07	Xero account manager to	Alex Barnes	**Closed**	**5 March:** Alex and Kelvin are working through the issues out of session.

Action Item	Description	Action by	Status	Update
	follow up INC000034126421 related to EFTRS incident.			
19/02 - 06	Xero account manager to follow up INC000033950384 related to CUREL 2018 list function not working	Alex Barnes	**Closed**	**5 March:** Alex and Kelvin are working through the issues out of session.
19/02 - 05	MYOB are having issues with the Activity statement Lodgement Report (ASLRPT), some agents can never pull these reports. This is where some clients have reached the branch number limit on the ASLRPT, incident have been raised.	Paul Walters / Anne Soe	**Closed**	**02 April:** Fix deployed to Production 26 March 2019 and confirmation has been received from the agent that they have received the reports. **20 March 2019:** The large client incident INC 34139890 is scheduled to be fixed on 26 March 2019. Other report incidents are being actively managed and investigated. **5 March:** This issue is being looked at as a priority, but may not be resolved by the end of March.
19/02 - 04	GovReports account manager to follow up lodgment list issues being experienced	Amrik Singh	**Closed**	**20 March:** This item will be closed as it will be followed up by the account manager offline. **20 March:** Still being investigated – no update **5 March:** INC000034075635 was previously raised and the account manager is liaising with DSP and ATO technical teams.
19/02 - 03	Update on TPB information on removal of branch number registrations – impacts on CAA registration	Danny Figueiredo / Steven Holmes	**Closed**	**20 March:** Steven will liaise direct with Class – item will be closed out of this forum **20 March:** As the information from the TPB has been sent to Class this issue is considered closed **5 March:** Danny is on leave and Steven has only just started to look at this **19 February**: Information provided in attachment (Final approved Branch policy correspondence)
19/02 - 02	Mick Ferris to give an update on when the 'Trustee for' naming issue will be resolved.	Mick Ferris	**In progress**	**23 July:** We are aiming to implement a fix on 03/08. **09 July:** We are aiming to implement a fix on 03/08. **25 June**: We are aiming to implement a fix on 03/08. **11 June**: No further update at this time – awaiting deployment

Action Item	Description	Action by	Status	Update
				28 May: No further update at this time – awaiting deployment
				14 May: No further update at this time – awaiting deployment
				30 April: No further update at this time – awaiting deployment
				16 April: No further update at this time – awaiting deployment
				02 April: Fixed planned, it will be scheduled for the April EVTE release. Mick to send through further information.
				20 March: Date for resolution still TBA
				20 March: This has been escalated as the solution involves ICP and AM with an impact on the Intermediary Registration Process. Pls see attached email. Note: AM having advised the solution would not be in place prior to Q3 – hence the escalation. Once escalated, DWS have little involvement. The TFS item should be 'removed' from out Pipeline.
				5 March: This will go in as an eFix, the date will be provided as soon as it's known, though hopefully very soon.

Action Item	Description	Action by	Status	Update
19/02 - 01	Details on the TT19 plan on a page to be released and communicated to DSPs.	Mick Ferris	**Closed**	**5 March:** The TT19 release on a page was published on 27 February
05/02 - 05	Sharna will investigate the nature of the issue and provide an update to the group at next meeting.	Sharna Maltman	**Closed**	**19 February:** An incident was logged, and a fix was implemented on 06/02/2019. DPO and DSPs issues were resolved
05/02 - 04	David will provide details as to whether the IITR pre-fill downloadable XML file which is available from the tax agent portal will still be available with the transition to Online Services for Agents	DPO	**Closed**	**08 February 2019:** The IITR prefill XML file will be available for download in Online Services for Agents.
05/02 - 03	Anne will confirm the process for email rejection once the mailbox is closed and the grace period has expired. (Will there will be a standard fail message validation, rejection email, or will it simply time-out)	Anne Soe	**Closed**	**20 March 2019:** The ATO ELS team has not been able to provide advice on the exact error message when the direct connection to ELS is closed. They suggest the likely message will be 'Authentication time out' or 'Authentication error'. **19 February**: Direct connection to ELS will be prevented from the 18th April. The ATO ELS team are currently investigating if a system errors/message will be viewable by tax agents and if so what that will be.
05/02 - 02	Anne will confirm details around the password update process once direct access to the ELS gateway is decommissioned.	Anne Soe	**Closed**	**19 February:** ELS passwords will no longer need to be maintained after the 18th April. Note: If issue with agent's ELS account, e.g. T21 Transmission error these should be escalated to ATO by agent rather than software provider.
05/02 - 01	Ross will look at: • the impacts of the shift of D12 and D15 entries from the main form to the	Ross Barns	**Closed**	**20 March:** Ross has sent the responses to these and other questions, it has been published as a **separate document** with the artefacts from todays meeting **5 March:** Ross to send an email which answers these questions

Action Item	Description	Action by	Status	Update
	Deductions schedule on the ability to generate a complete PDF version of the IITR for possible lodgement as a paper form • the impact of rounding and how this is to be applied to the IITR with the implementation of the Deductions schedule • the requirement for the lodgement of individual rental schedules for Partnerships and Trusts post the full implementation of the Multi-property rental schedule for Individuals by TT20. Ross to ensure that the IITR BIG is updated to address issues of: • consolidation of records where the maximum repeatable fields for a label or form are exceeded, • rounding of values policy • order of line item			

Action Item	Description	Action by	Status	Update
	transactions associated with the Deductions schedule			
22/01 - 05	In relation to the ODRPT errors, follow-up to see what fixes we have in and the timing and impacts of these.	Mick Ferris	**Closed**	**05 February 2019** There is currently one ongoing issues (no incident) for on-demand reports and one incident that has been closed as the service is working as per design. 1. INC000033923049 Report not returning when one of the child documents fail. e.g.: Report has 100 child documents, if 1 fails, none of the other 99 is returned to the user. **Outcome**: Due to the type of change and enhancing the service to return all child documents and dismiss failed ones - will involve ICP (Correspondence Module) - a feature should be submitted to the DWS Pipeline / DWS Product Management mailbox 2. Performance and Reliability. Due to the volume of transactions maintained within a report, this is placing pressure on the system, to reduce the load a proposed solution was to modify the report schema to include a date range in the request. **Outcome:** Due to the type of change (breaking change) on DSP - a feature should be submitted to the DWS Pipeline / DWS Product Management mailbox
22/01 - 04	Why is there no reflection of the labels D6 (Low Value Pool) and D11 (Deductible amount of undeducted purchase price of a foreign pension or annuity) in the DDCTNS MST specification	Ross Barns	**Closed**	As outlined below, the key principal was not to create additional fields (including summary fields) or duplicate fields on either the main form or new schedule where they were not in place in the design for the 2018 return. For D6 the following values are reflected in the DDCTNS - Low value pool deduction relating to financial investment , Low value pool deduction relating to rental property, remaining low value pool deduction. The deduction claim for Low Value Pool is reflected on the IITR main form.

Action Item	Description	Action by	Status	Update
	V0.1			For D11 (Deductible amount of un-deducted purchase price of a foreign pension or annuity) there is only one (unchanged) field reflected on the main form. This field is not repeated on the Deduction Schedule. For Taxtime 2020, the new income associated form will allow for granular foreign pension information to be included. Each foreign pension will have provision for a UPP amount if applicable (and other pension related deductions) to arrive at a net foreign pension income amount. The total of the UPP amounts from the income form will then write to the total UPP on the main form. Hence, the deductions form does not require granular UPP deduction fields. With the new income schedule not starting until Taxtime 2020, no change for UPP amounts is required for Taxtime 2019.

Action Item	Description	Action by	Status	Update
22/01 - 03	Why does the deductions schedule DDCTNS specification V0.1 reflect a summary or total expense labels on the main IITR for labels D12 (Personal superannuation contributions) and D15 (Other deductions – not claimable at items D1 to D14). This means that they exist only on the Deductions Schedule.	Ross Barns	**Closed**	**05 February 2019** BIG release date TBA A key principal adopted in the design process was **not** to create additional fields (including summary fields) or duplicate fields on the main form or new schedule where they were not in place in the design for the 2018 return. For both D12 and D15 the 2018 MST for the IITR main form reflected the details at a granular level – D12 = 25 entries and D15 = 100 entries. In aligning to the myTax design these fields were shifted from the main form to the deduction schedule. These will be appropriately mapped by the ATO for back-end processing purposes. This means that DSP's would need to continue to reference the schedule entries for these fields for the purposes of the IITR main form total deduction calculations. If it is seen as preferable to the majority of the DSP's that a consolidated summary field be identified for the IITR main form then we will be responsive to this request.
22/01 - 02	Advise the group on when the MST will be updated to include limits and orders	Mick Ferris	**Closed**	**05 February 2019** The MST is an auto generated artefact and any change to the MST output would need the ATO ESR Toolset modified to accommodate. **Outcome** Business has advised, the Limits and Orders will be address via the Business Implementation Guide (BIG). *Note: A technical feature can be created to support a shift in MST output. This would need to be prioritised against current Legislative and Time critical work.*
